

## Dare to Paint!

Per Nimér & Marko Leus – Photography Anna & Petra and Göran Örtegren

- A warm and practical colour book
- Over 50,000 copies in 7 languages sold!
- A internationally designed paint book with innovative interiors

How do you choose a colour for your interior? How do you combine that colour with other colours? And how and where do you apply them so that they live up to their promise?

As a colour expert with paint producers Akzo Nobel and home decoration retailer Ikea, Per Nimér is constantly trying to find an answer to all these questions. His experience resulted in this unusual but very successful book that is stimulating in both practical and concrete terms.

'Choosing colours is like driving a car', says Per. 'You need to know which direction you're going.' *'Dare to paint!'* not only shows you all the different roads you may take, it also leads you all the way where you really want to end up: a place where you feel at home.
