

Surfing the Internet Safely

Pascal Vyncke

- **Surfing and mailing safely at one's fingertips!**
- **Both the computer illiterate and the advanced user will find this book indispensable**

Surfing the internet is here to stay. In real life we find it only normal to follow safety instructions in order to protect ourselves against burglars and swindlers. It goes without saying that the internet is also the domain of a motley crowd of criminals, vandals and con men that we have to protect ourselves against.

This book extensively describes all the techniques used by these criminals. It offers clear and truly useful solutions to protect ourselves against criminal activities in a simple way.

Pascal Vyncke is the author of the bestselling *Internet after 50*. Vyncke provides once again a crystal-clear text. Without using any mumbo-jumbo he deals with the various problems and offers a suitable solution as well as useful information to protect yourself.

Surfing the Internet Safely is a long-awaited publication. The book saves on time, effort and money. From this moment on the whole family can at last safely surf the internet. Both the computer illiterate and the advanced user will find the book indispensable.

Pascal Vyncke became famous as the young man who taught a whole generation of 50-plus Flemings to surf the internet. *Internet after 50* is a bestseller, and www.SeniorenNet.be an immensely popular portal site. Vyncke uniquely explains intricate and difficult themes in an amazingly clear-cut way.
