220 x 220 mm | 96 pages
100 colour illustrations | 15,000 words

This successful series of medium-priced books on garden subjects is simultaneously being developed by Lannoo and Terra. Each book is dedicated to a certain theme, plant or flower, written and photographed by experts. Most of the titles not only contain factual and practical information, often the historical and cultural background of the subject is explored too.

All titles are finished in hardcover. All rights are available, except indicated otherwise.
